

We are concerned that current FM stations could be replaced by LPFM stations. We listen to K-Love on 91.1 which is a family friendly station. This is one of the few stations that offer non-offensive broadcasting. We believe that K-Love provides a valuable service by being family friendly and a station that parents can let their children listen to without worrying. Please do not let the new LPFM stations take priority over current stations.

Thank you,  
Mark & Karol Wilson
